KATON KURNIA WIJAYA

Software Engineer • Frontend Developer • Project Manager

Phone 087776131793 / 0881012432928 **Email** Katonkurnia28@gmail.com **Location** Jakarta, Indonesia

PROFESSIONAL SUMMARY

Dedicated Software Engineer with experience in web, Web3, and mobile application development. Proven ability to fulfill multiple roles — Frontend Developer, Software Engineer, and Project Manager — delivering client-focused digital solutions. Skilled at translating requirements into responsive interfaces and managing projects from inception to delivery.

WORK EXPERIENCE

Software Engineer / Frontend Developer / Project Manager *Jan 2024 – Present*
Codiroom — Software House

- Developed and maintained web, Web3, and mobile applications using modern frameworks and tools.
- Led client projects end-to-end: requirements gathering, development, testing, and post-launch support.
- Built responsive user interfaces aligned with client specifications and delivered within agreed timelines.
- Coordinated cross-functional teams and conducted troubleshooting sessions directly with end users.

IT Support & Frontend Developer *2022*
PT. TerminalTujuh

- Developed and maintained web applications using WordPress, OpenCart, and PHP.
- Performed hardware and software maintenance; provided IT support and troubleshooting to internal users.
- Managed CMS-based platforms to support day-to-day company operations.
